

**Distribution of ornamental plants in polybags for vertical garden at Nyati Estate shop, Undri, Pune, on 7/10/2020**

In RGI shadenet house we are growing ornamental, fruits, medicinal plants with the help of students and staff. As it was a lock down period one student has participated in this activity to make polybags of three varieties of foliage plants such as *Rhoeo discolor* both simple and variegated and variegated *Chlorophytu*. Because of the loss in his business, shop owner was hesitating in maintaining his existing vertical garden. With the help of students we could donate plants to decorate existing garden.

**Ornamental plants ready for vertical garden (RGI)**

**Previous setup at shop**

**Maintenance of plants as vertical garden**
